

“i can  
publish in record time.”

“Working with one assistant, I was able to go from installation of an Illumina Genome Analyzer to publication in *Nature Methods* in just three months. The system’s automation and massive throughput have had a huge impact on my research.”

Dream it. Do it. That's what hundreds of Genome Analyzer users are doing every day. They're publishing breakthrough research at an unprecedented rate. More than 130 peer-reviewed publications to date. And growing at a rapid pace. Visit our website for the latest publication list and full citations.

Congratulations Illumina Community.
