

*Unlock the full potential
inside your FFPE samples*

Maximize cancer discoveries from your FFPE samples by unlocking the full potential of copy number, allelic ratio, and somatic mutation data.

The OncoScan™ FFPE Express Array enables you to:

- Obtain unparalleled data quality from challenging FFPE samples
- Use the lowest amount of input DNA
- Detect the broadest linear dynamic range: 0–60 copies

Visit www.affymetrix.com/oncoscan to learn how this technology has been used successfully on thousands of FFPE samples.
