Signalling and Cancer II: Gerard Evan (UK), Margaret Frame (UK), Frank McCormick (US), Norbert Perrimon (US), Catrin Pritchard (UK), Owen Sansom (UK)

Aims of the Conference

This conference will focus on the use of biological models of human cancer that may be used to provide insight into the causes and processes of this disease. The study of these models will facilitate the discovery, development and testing of novel therapies.

Short talks will be granted to the authors of outstanding abstracts. Some financial assistance will be available to the presenters of these talks through sponsorship from the Association for International Cancer Research.

Website, on-line registration, payment and abstract submission instructions:
