Unlock the full potential inside your FFPE samples

Get highly accurate and quantitative results. Accelerate your translational research.

Affymetrix® FFPE Solutions unlock the full potential of precious FFPE samples for:
- Whole-transcriptome profiling
- microRNA and IncRNA analysis
- RNA signature and fusion transcript validation
- In situ mRNA and non-coding RNA visualization
- Copy number, LOH, and somatic mutation analysis

Unlock the wealth of information in archived FFPE samples now, visit www.affymetrix.com/ffpesolutions or scan the QR code with your mobile device.
